

SKIMO SPLIT

12V or 24V DC electrical air conditioning unit

Combining the advantages of a built-in electrically-driven compressor with the installation flexibility of a split system.

Compressor
built-in

External unit

Evaporator unit

High performance

High «cooling capacity / electrical consumption» ratio: Cooling capacity 2,9 kW at 31°C for only 0,8 kW electrical consumption.

Quick and easy to install

Easy installation.
Simple electrical connection.

Compact

External unit : 69 x 42 x 20 cm (27,1"x16,5"x7,8")
Evaporator unit : 37 x 41 x 15 cm (14,5"x15,7"x5,9")

Fits on most machines and vehicles

The external unit can be fitted vertically or horizontally: SKIMO Split can be installed on most machines.
